EXPERIENCE

UX DESIGNER (MASTER'S PROJECT)

WEILL CORNELL MEDICINE

(CLIENT: HEALTH AND HOPE)

JAN 2020 - JULY 2020 | NEW YORK

- Design, develop and launch a global mobile application using iterative participatory design.
- Plan and execute mixed methods to evaluate the usability and efficacy of UX and UI and formulate insights.
- Synthesise and communicate research results to different internal audiences to help magnify the impact of the findings

FRONT-END DEVELOPER

FAMILY PLUS HK | OCT 2018 - AUG 2019 | HONG KONG

- Developed UI using HTML5, CSS3 and working with CSS pre-processors, and UI Frameworks, including React, JQuery.
- Managed and optimised landing pages of company's website with A/B tests.
- Participated in the UI /UX development processes by establishing and documenting development standards.

UX DESIGN INTERN

DNAFIT | JUN 2017 - AUG 2017 | HONG KONG

- Directly influenced digital product strategy and design by communicating clearly and in a compelling way.
